

RT-225-XT

Modern Radiographic Inspection

RT-225-XT

Marietta NDT manufactured RT-225-XT Cabinets are designed and produced in Marietta Georgia under ISO 9001 Quality standards. Our Standard Product design meets all CFR 1020.4 radiation requirements and can provide safe x-ray space for Film, CR, and DR operations.

We offer these cabinets with a design well suited for monoblock, microfocus, minifocus, and standard X-ray generators. We have a variety of accessory items that can help meet unique X-ray inspection requirements.
